

Innovator 24 lb Folding Wheelchair

Durability plus Comfort and Convenience

Problem:

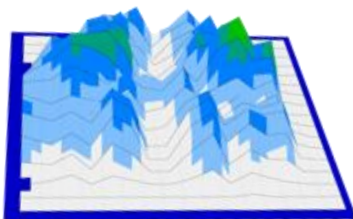

Patient is confined to a wheelchair

Past Solutions:

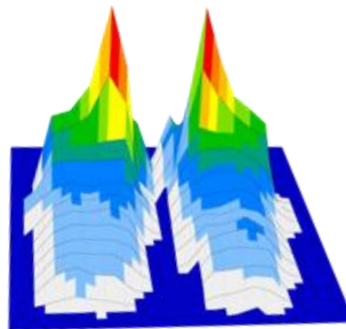

Rigid, heavy wheelchairs which are inconvenient and reduce the patient’s ability to be independent and enjoy life

Innovator Advantages:

- Durability of rigid wheelchairs
- Ultra-light design weighs only 24 lbs
- Adjustable center of gravity and camber
- 3D Comfort Seat minimizes pressure points
- Telescopic folding mechanisms with barrel locking cam
- Quick release wheels for easy transportation and storage
- Removable backrest, pushing grips, and footrests
- Easy to use, affordable, and durable

Pressure Points
3D Contoured Seat

Pressure Points
Standard Seats
